

The image resizes to fit the tablet screen and maintain a readable title.

The header and horizontal divider makes it very easy to see where content changes.

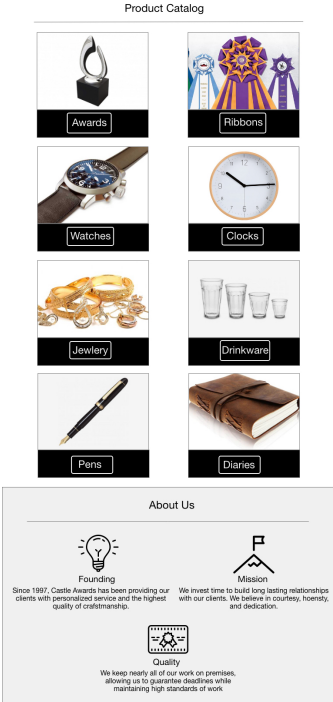

The title page still fits snug to the tablet sizing. There is no distracting information. Just the title and blurb.

The bootstrap cards wrap to maintain good formatting and readability.

These cards are aesthetically fitting to the tablet as well. The products appear two by two, rather than all cluttered on a smaller screen.

We use strong formatting principles, putting this less important information at the bottom of the page

Once again, the icons make it nice for the reader on a smaller screen. Stacking the icons makes it easy to digest the information.
